

# UTSA FAST FACTS 2023-2024

## FACULTY

UTSA recruits highly sought faculty who are nationally and internationally recognized in their fields. Diverse scholars and researchers cultivate a challenging and research-intensive environment for students in the classroom and in laboratories.

### EXCEPTIONAL STUDENTS DESERVE EXCEPTIONAL FACULTY

We hire promising and accomplished faculty dedicated to student success and research excellence. Our faculty engage in meaningful work, forge new paths and play a key role in the development of our local and national community. Once faculty join UTSA, they enter an outstanding environment in which to accomplish their professional goals. Faculty pursue opportunities ranging from pedagogical instruction and mentoring to networking and leadership development.

### FACULTY SPOTLIGHT | Professor Rena Bizios

In 2015, Bizios became UTSA's first faculty member elected to the National Academy of Medicine. In 2019, she was also inducted into the National Academy of Inventors, joining three other UTSA scholars with this distinction, including President Eighmy.
